DXLOCKER

Innovative and reliable **Multifunctional Vending Machine,** compliant with the concept of industry 4.0.

DXLOCKER is a **modern and self-service** vending machine used for product distribution. The modular design gives the possibility to store **up to 128* unique items of different sizes.** Ease of operation is provided by **21″ touch screen** with modern and intuitive interface. **Two product loading options** enable even faster and simpler filling the machine. The **DXLOCKER** has a built-in **RFID** reader, barcode and **QR code scanner** which supports **the product return function.**

*1256 - maximum number of lockers in combination with drawers

ADVANTAGES

- ▶ **24/7 access**.
- ▶ **Drop in** the consumption of products by **up to 50%**.
- ▶ Extensive **product returns** function.
- ▶ Power tool **charging capability**.
- ▶ **Large capacity,** 1**28 storage** compartments in the machine or **1256 including drawers**.
- ▶ **2 options for loading** products into the machine.
- ▶ **21'' touch screen** with modern and intuitive interface.
- ▶ **Configuration** as required.
- ▶ Built-in **RFID reader,** barcode and **QR code scanner**.
- ▶ **Monitoring of current status** via the IRSystem web application.
- ▶ **Modularity** allows to combine devices **into sets**.
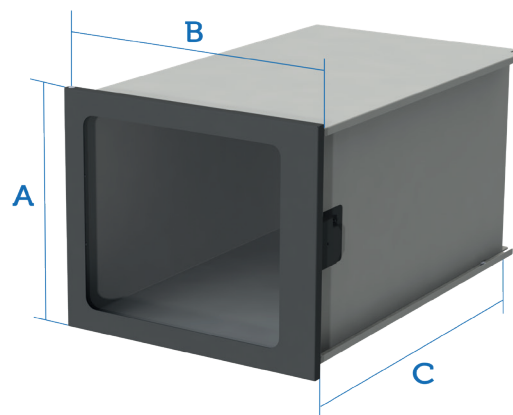

DXSYSTEM APPLICATION

We offer **proprietary DXSYSTEM software** tailored to the individual needs of the customer for each vending machine, which opens up **unlimited possibilities for remote process management.** DXSYSTEM enables **data migration** and fast communication between the server and machine.

- possibility of **integration** with systems such as ERP, GERP, SAP, etc.
- generating of **automatic reports** and orders
- actual **preview of the inventories** available in the machine
- **management of authorisation** of employee access to the vending machine
